EDUCATION

Sanjay Ghodawat University, Atigre

B.Tech in Artificial Intelligence and Machine Learning (AIML)

Pursuing

Kolhapur, Maharashtra

Ashokrao Mane Polytechnic, Vathar

Diploma in Computer Science

May 2020 – May 2023

Kolhapur, Maharashtra

RELEVANT COURSEWORK

- Data Structures
- Cloud Computing
- Web Development
- LLM
- Algorithms Analysis
- Machine Learning
- Deep Learning
- Wazuh SIEM Tool
- Artificial Intelligence
- Database Management
- Generative AI
- Langchain, Langgraph

EXPERIENCE

NeuAI Labs Pvt.Ltd

AI/ML Internship

January 2026 - Present

Pune, Maharashtra

- Collaborating with technical and leadership teams on real-world AI/ML projects.
- Conducting research and contributing to development, testing, and documentation of intelligent systems.
- Assisting in model building, evaluation, and performance optimization tasks.
- Supporting project implementation while ensuring timely milestone delivery.
- Maintaining professional conduct and adhering to company policies and confidentiality standards.

Bigblock infraworld pvt.Ltd

Freelancer Developer

January 2024 - February 2024

Pune, Maharashtra

- Developed a responsive real estate website enabling users to search and browse property listings.
- Implemented dynamic search filters and interactive image gallery using JavaScript to enhanced user experience.
- Designed a clean and intuitive user interface with HTML and CSS, ensuring cross-browser compatibility.
- Link to Live Project: <https://bigblockinfraworld.in>

Revolution IT Solution

Web Development Internship

July 2022 – August 2022

Kolhapur, Maharashtra

- Developed responsive websites using HTML, CSS, JavaScript, and Bootstrap.
- Collaborated with senior developers and contributed to UI optimization.
- Improved website performance and user experience.

PROJECTS

Security Threat Prevention Using AI Agents | *Python, FastAPI, Wazuh SIEM, LangChain, LangGraph*

Working

- Building a cross-platform AI system to monitor system processes and detect suspicious activity.
- Utilizing LLM-based reasoning for intelligent log analysis and automated decision-making.
- Developing RESTful APIs and integrating databases for log storage and system control.
- Designing a modular architecture for monitoring, planning, and automated response.

Projects (Continued)

CRM for Real Estate Organization | *HTML, CSS, JavaScript, Bootstrap, MongoDB* **December 2025 – Present**

- Managing and updating CRM systems with client information and transaction records.
- Developing strategies to improve customer engagement and retention.
- Providing training and support on CRM best practices.
- Supporting real estate agents in client relationship management and workflow optimization.

AI-Based Housing Price Prediction | *Python, Pandas, NumPy, Scikit-learn* **March 2024**

- Developed a machine learning model to predict housing prices based on features such as location, size, and number of rooms.
- Applied regression techniques (e.g., Linear Regression) to improve prediction accuracy.
- Performed data preprocessing, analysis, and visualization using Pandas and NumPy.
- Evaluated model performance using RMSE and R-squared metrics for continuous improvement.

AI Smart Face Recognition System | *Python, CMake, OpenCV, Pandas, NumPy* **February 2023**

- Developed a machine learning model using Python and OpenCV to detect and recognize faces in real time.
- Implemented Haar Cascade classifiers for accurate face detection and recognition.
- Utilized Dlib and Face Recognition libraries for facial feature extraction and matching.
- Designed a user-friendly GUI using CMake to enable easy interaction for non-technical users.

TECHNICAL SKILLS

- **Languages:** Python, SQL, C, JavaScript, HTML/CSS, LLM
- **Developer Tools:** VS Code, Google Cloud Platform, Jupyter Notebook
- **Technologies/Frameworks:** Linux, GitHub, ChatGPT, Perplexity AI, Gemini AI
- **Techniques:** Supervised Learning, Unsupervised Learning, Reinforcement Learning, Computer Vision, Naive Bayes, Decision Tree, Dimensionality Reduction, Deep Learning, Machine Learning Techniques

CERTIFICATIONS

- **Workshop on GenAI-Enabled** — 3RI Technologies (2026)
- **Geospatial Analysis using Google Earth Engine** — ISRO (2024)
- **Placement Preparation Programme** — IIT Bombay (2024)
- **Web Development Internship** — Revolution IT Solutions (2022)
- **Runner-Up** — Face Recognition Project Competition (2023)
